

BITCOIN TOWER DUBAI

Where Nights Pay You Back!

COMING SOON

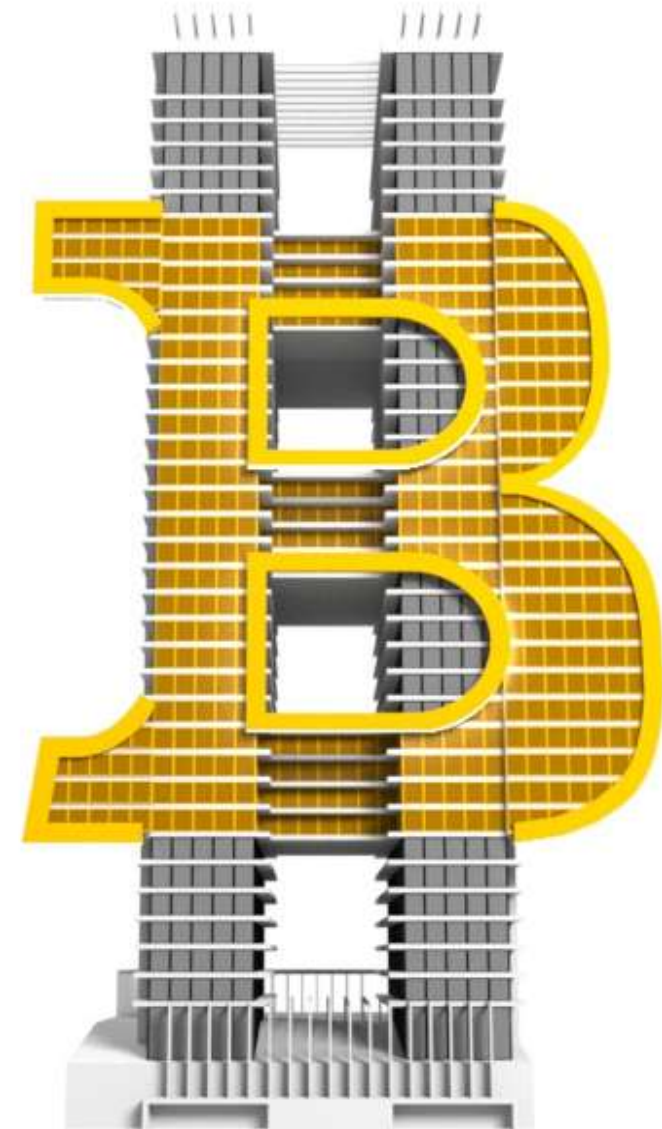

The First Bitcoin Tower in the world.
Where better than Dubai?

The business idea and its development:

The commitment to celebrating the importance, notoriety and values of Bitcoin has led to the creation of a new hotel chain in the shape of the king of cryptocurrencies. The hotel chain also embraces the new technologies of blockchain and AI, with attention to the sustainability of the material and the zero consumption of CO2.

The hotel chain has taken a unique approach to rewarding their guests by offering NFTs, which provide exclusive utilities to the holders. Moreover, the price of rent will be considered as staking of crypto and produce an APY that the guests can redeem. This innovative approach to hospitality reflects the growing importance of cryptocurrencies in today's society and is an excellent way for people to experience and learn more about them.

LOVE DUBAI

The development: new buildings and acquisitions.

The program provides to open a number of Bitcoin Tower Hotels, doubling in Dubai, in Saudi Arabia, and in the main cities of the world, to create a new hotel brand.

In addition, there are even acquisition of existing hotels, which need to be repositioned.

It is an ambitious initiative aimed at creating a unique experience for millennial travelers and tech enthusiasts alike. These hotels will serve as a destination for all kinds of events, congresses, and parties related to the new tech industry. With its cutting-edge technology and a range of innovative features, the Bitcoin Hotel will offer an unparalleled experience that is sure to attract a global audience. The hotels will be designed to cater to the needs of the modern traveler, with state-of-the-art facilities, high-tech amenities, and a range of services that are tailored to meet the needs of the new generation. By establishing these hotels in major cities across the globe, the program aims to become a must-visit destination for all those seeking a meaningful and enriching travel experience.
